CURRICULUM · BUCHAREST, ROMANIA · REMOTE

Adi Gheo

AI PRODUCT BUILDER · CREATIVE TECHNOLOGIST

I design products and ship them — AI agents, apps and websites — and I can make the video that explains them. Founder of GX. Actor and filmmaker before that, and still.

SUMMARY

Product builder working across AI agents, product design, UX/UI and full-stack development. Founder of GX, where I designed and built GX OS: AI agents that find clients, answer them and market the studio on real data. I also built AG Studio, AI agents for an actor's career. I build with AI coding agents under clear rules and tests, and I care about honest systems: evidence over claims, verification in code, human approval where it matters. This work extends a creative career spanning 12+ years in acting, audiovisual production and storytelling, including film, television, theatre and commercials. Studied acting at UNATC (2012–2017); perform in Romanian and English, with experience in voice-over, presenting and on-camera communication. I also work as a video editor and creative producer, making cinematic and short-form content, branded video, and AI-assisted visual, video and audio concepts using tools including Higgsfield, ElevenLabs and Suno.

EXPERIENCE

Founder · Product builder — GX

BUCHAREST / REMOTE

Studio for websites, AI content, software and automation (gx.adigheo.com). Designed and built the studio's AI agent system (GX OS), its website and concept websites.

Actor & filmmaker

FILM · TV · THEATRE · COMMERCIAL

Credits: The Princess Switch (International film); Bravo, tată! (TV series); Teambuilding (Feature film).

SELECTED PROJECTS

GX OS

IN DAILY USE AT GX

The operating system of my studio: AI agents that find clients, answer them and market the business, with my approval where it matters.

AG Studio

IN DAILY USE

AI agents for an actor's career, with me as the first user: castings, industry contacts, materials and online presence in one place.

GX Job Agent

IN USE

My own job-search agent. It finds roles that fit, checks everything and prepares the application. I read it before it goes.

Vibeat

CLOSED BETA

A nutrition-first “vibe eating” app: say what you crave, get a recipe that fits your plan. Desktop and mobile.

ADIOS

WORKING V1

A voice-first personal assistant that runs tasks, projects and calendar when you talk to it.

Websites

LIVE

- gx.adigheo.com — The studio site, built for humans and readable by machines. Bilingual.
- adigheo.com — My actor and filmmaker site: headshots, showreel, press and contact.
